Ms business administration

Just get idea, don't copy past

If copy past you will get zero marks, so rewrite it in your own words

Literature review is essential and basic step for conducting a research , with out proper literature review you will be not clear about your research question , its importance, variable to be used and about research methodology, about population , and sample.

It also help to find previous research as well as research gap .

It will help ALI in

Key purposes of the literature review:

1. to familiarize yourself with the methodology, content and conclusions of others' research on your chosen issue, need or problem and to articulate the key research issues relevant to your issue, need or problem
 - o **purpose:** to insure that you understand the broad context to your specific issue, need or problem and to avoid the duplication of existing research, especially flawed or outdated research
2. to introduce you to the advantages and disadvantages of various methodologies and methods for research
 - o **purpose:** to comprehend more deeply the relationship between methodology, methods and results and to choose the most appropriate and productive methods for your data collection about your issue, need or problem
3. to familiarize yourself with potential successful responses to your chosen issue, need or problem which others have both attempted and evaluated for their effectiveness
 - o **purpose:** to help you to learn from other researchers' experiences and to guarantee that when you choose and implement your specific responses you are aware of both the advantages and disadvantages attached to these, or similar, responses when implemented elsewhere

Be careful about copy past
